

ARAINA NARULA

*Royal Adventures Beyond The Ocean*

Princess Mia and Prince Ethan were having a great time with their friends, including the witch, the fairy, the unicorn and the puppy, in their palace's garden.

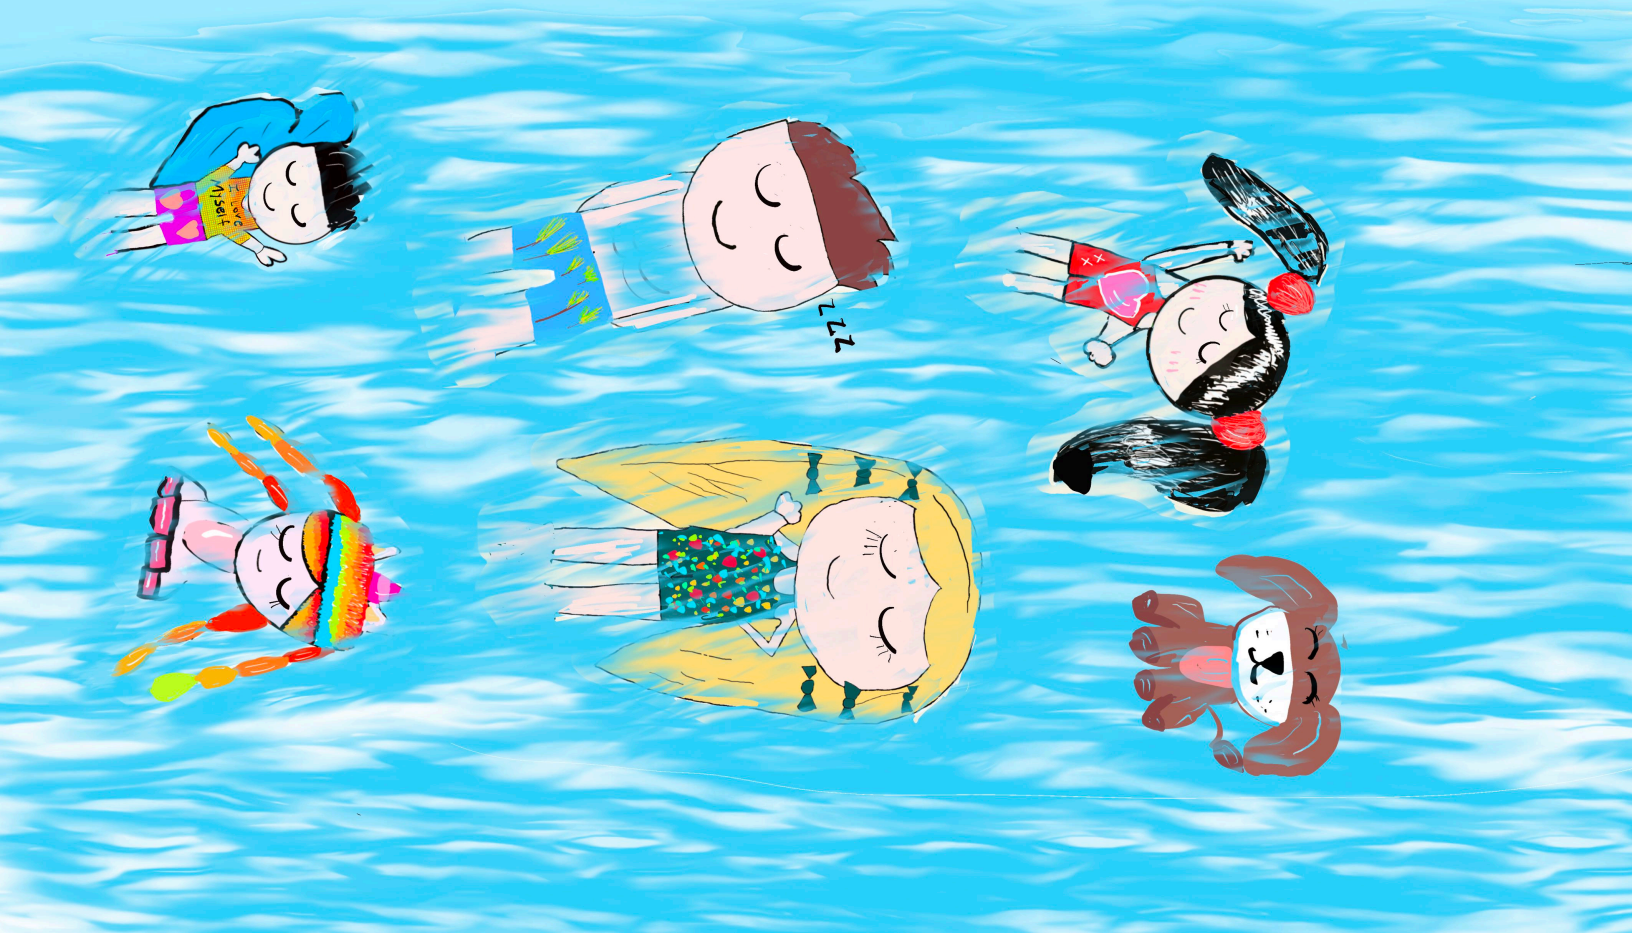

One day, the royal group was chilling on the beach.  
They decided to swim in the ocean.

Suddenly, a big wave came and swept them away. They all fell asleep and floated to a faraway land. When they woke up, they found themselves on a mysterious and strange island. Thanks to the witch's magic, they could change their clothes whenever they wanted.

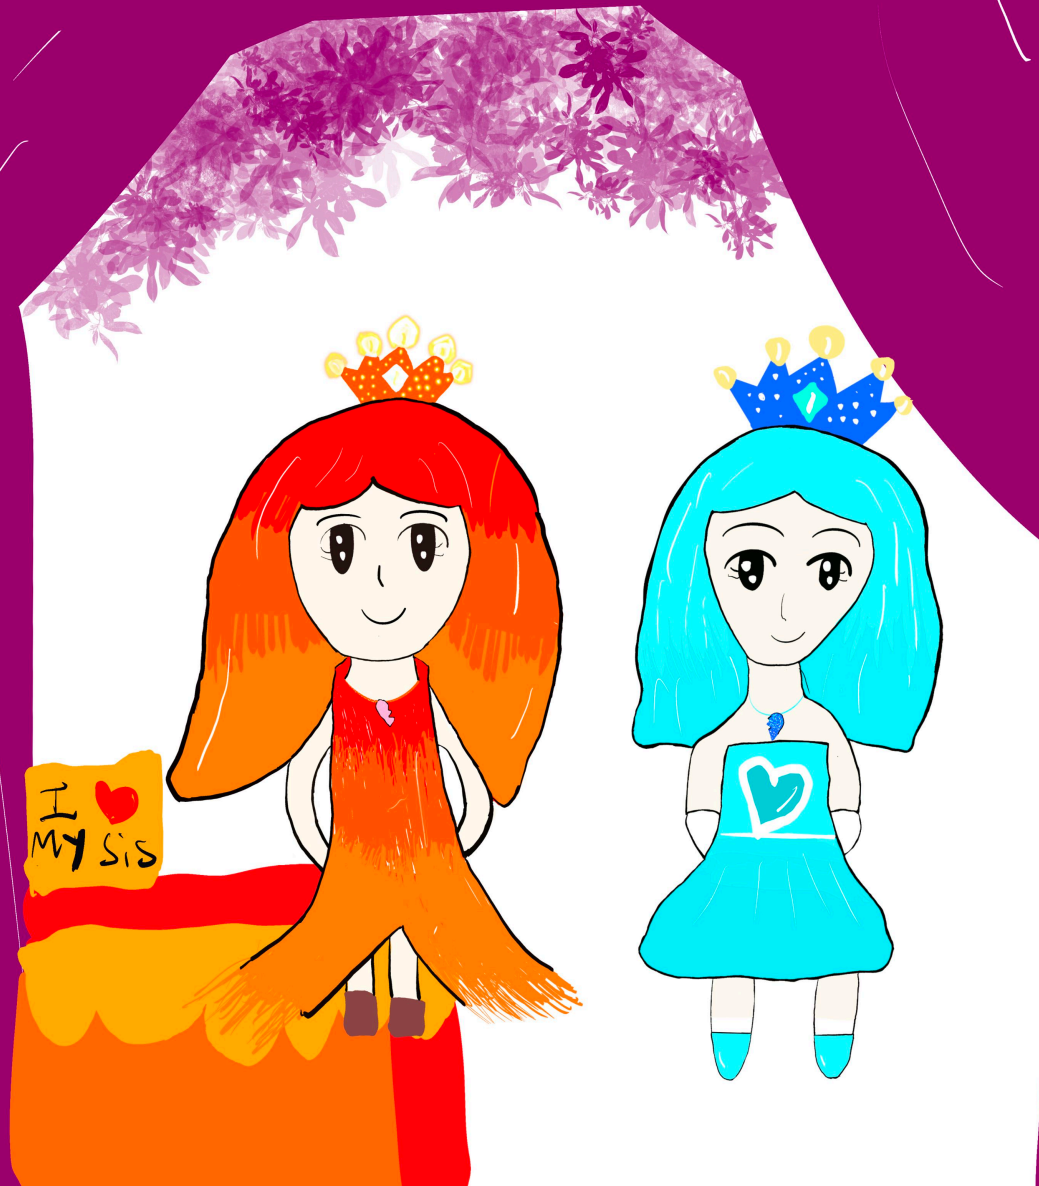

I am  
sad

The island was beautiful, but it seemed to be weeping. Princess Mia and the witch found some creatures and humans asking for help. When they asked the reason, the islanders shared the story about their kingdom.

The royal family had two princesses- the Water Princess and the Fire Princess. The sisters were very close and loved each other deeply. They even shared a necklace, each keeping a piece of the pendant as a symbol of their love.

The Water Princess had a beautiful water alicorn as her pet.

The Fire Princess had a majestic fire dragon as her pet.  
The alicorn and dragon were great friends.
